

Legal Overview – Xaasy B.V.

Xaasy B.V., established in Amsterdam, the Netherlands, operates under Dutch and European law. Xaasy provides infrastructure, GPU hosting, cloud, and connectivity services within the European Economic Area (EEA), emphasizing digital sovereignty, data protection, and transparency. Xaasy also operates the brand HyperAI, part of its product and service portfolio.

1. Legal Framework

Xaasy complies with:

- General Data Protection Regulation (EU 2016/679) ('GDPR');
- Dutch GDPR Implementation Act (Uitvoeringswet AVG);
- Dutch Civil Code and relevant tax and telecommunications laws.

All services are subject to Xaasy's General Terms & Conditions, Privacy Statement, and Data Processing Agreement (DPA).

2. Privacy Statement

The Privacy Statement describes how Xaasy collects, processes, and protects personal data in its roles as Data Controller and Data Processor. It also references Xaasy's Sub-Processor List available at www.xaasy.ai/legal.

3. Data Processing Agreement (DPA)

Xaasy's DPA defines the rights and responsibilities of Xaasy (Processor) and its customers (Controllers). It references the same Sub-Processor List and Technical and Organizational Measures published at www.xaasy.ai/legal.

4. Sub-Processor List

Xaasy maintains a public Sub-Processor List identifying trusted partners supporting its operations. It includes their role, location, and data categories processed. The current version is available at www.xaasy.ai/legal.
